

# Sick Joke of the Century?

You be the judge?

In grace/disgrace?

During the years 2000 - 2002 I personally donated thousands upon thousands of pounds to three local churches within my community **St Mary the virgin, St Peters and St Francis**. After telling the lay readers, the priests, the bishops and the churchwardens about racism, zionism and corruption in my opinion within the church. They turned the other cheek and totally ignored me.

Weeks after being released from Belmarsh prison where i was detained for five months on remand for a crime I never committed. I held a meeting with local clergy at my home. I told them how I had been framed by the local police (**Brentwood Police, Essex**) and **Mr John Tucker**, wealthy businessman/Church Warden/Chairman of Essex lawn Tennis Association whose father was a JP (Justice of the Peace, Magistrate).

I produced evidence to substantiate my claim. **David Tee**, Lay Reader for St Peters Church, the **Rt Rev Peter Allcock** and his good wife, myself and an independent witness who had served with Essex Police for 22 years. I told them of my troubles and the injustices that my family and I where going through.

We formed a circle and held hands and **David Tee** and the **Rt Rev Peter Allcock** said "We would pray to God for his guidance. " After 5 minutes **David Tee** said "Message from God was that I should get on with my life and forget everything that I had told them and proved. " They told me that if I didn't respect their wishes I would open a can of worms within the church, "

I replied after finishing my prayers. "That wasn't the message that I had received from God. " I said. "The message was open the can of worms and be damned. " Ten minutes after they both took cheques totalling £5,000 and left.

True or false?

**Sadly it's all true!**
